

FINNISH

SPRUCE 15x120 STS4 TK ST RGH SAND

5444

lauta.fi/5444

Introduction

- ✓ Made from Finnish wood, responsibly produced
- ✓ Completely natural and safe product
- ✓ Light and fresh appearance
- ✓ Handles moisture fluctuations well
- ✓ PEFC-certified

The product is sold unpackaged. This is a bundle produced as a test batch and is sold in its entirety as a single lot.

The product is comparable to item 4324 Panel finnish spruce 15x120 STS4 TK ST RGH SAND.

Product description

Made from domestic, healthy-knot spruce. The panel surface is heavily brushed (structured) and semi-transparent stained, highlighting the wood grain prominently.

The panels are suitable for saunas and dry indoor spaces.

- ✓ Finnish wood, responsibly manufactured in Lempäälä
- ✓ Completely natural and safe product
- ✓ Light and fresh appearance
- ✓ Excellent resistance to moisture fluctuations
- ✓ PEFC-certified

Our product uses spruce, a domestic, versatile, and strong softwood that handles moisture changes well. Easy to work with and finish, spruce is ideal for interior use, saunas, and, when treated, exterior cladding. Its warm light color and straight-grained pattern make spruce an aesthetically pleasing choice for visible surfaces. Our PEFC-certified spruce products are responsibly produced and environmentally friendly.

Product information

Product information

Tuotenimi	KUUSIPANEELI 15x120 STS4 SAUNAS KARKEA HIEKKA EI
Tuotenumero	5444
Saatavuus	Tuote poistuu valikoimasta

Product measurements

Vahvuus (mm)	15
Leveys (mm)	120
Paino (kg/myyntiyksikkö)	0,846
Neliömenekki (m/m²)	9,1
Hyötyleveys (mm)	110

Product features

Puulaji	Kuusi
Pintakäsittely	Värillinen saunasuojaus
Profiili	STS4
Päätyponttaus	Ei
Piilokiinnityspontti	Ei
Palokäyttäytyminen	D-s2, d0

Please note that we deliver our products in bundles. Bundle size is indicated together with stock information on top right corner.

Surface treatment

Highlighting Wood's Best Qualities with Surface Treatment

Surface treatment brings out the best in wood and tailors high-quality timber to its intended use. Beyond durability and fire safety, it adds color that perfectly complements your project.

Durability and versatility can be further enhanced with industrial painting or finishing suited to your needs. Pre-finished or treated wood also speeds up and simplifies work during tight construction or renovation schedules.

Wood is a high-quality, versatile material that, after industrial painting or surface treatment, performs even better in various conditions. Our extensive practical experience and expertise in wood finishing guide us on how to treat material for different applications.

Not all wood requires finishing before use, but treatments can highlight specific properties. For example, sauna wood benefits from protective coatings designed to withstand high temperatures and humidity. Surface treatment can also extend a wood product's lifespan.

The choice of treatment often depends on the wood's application. Properly treated wood adds structure and character to interior and exterior surfaces. Opaque painting or translucent finishes allow you to achieve the exact color that best fits your interior design and overall building aesthetic.

All painting and finishing work is done in our industrial paint shop. We use water-based, eco-friendly coatings and paints from reputable manufacturers. Our fire-retardant treatments can bring wood to a B-s1, d0 fire class.

To operate as environmentally responsibly as possible, a batch must be at least 500 meters. This minimizes raw material waste and keeps our operations efficient.

Sample pieces
